► Profile

I am eager for learning and facing new challenges!

Over 15 years of work experience, playing roles as project manager, developer, software tester, and marketing automation tools consultant, in more than 30 projects

With strong analytical skills and attention to details, I am very thorough and I like to understand the big picture to identify possible impacts of the current tasks. I am quick learner, proactive, and I believe in continuous learning to improve and do better and better.
